

(i) Amend the facility closure plan and obtain the department's written approval; and/or (ii) Cease facility operation or closure activities in whole or in part until an approved closure plan is obtained. (e) Each owner or operator shall close the facility in accordance with the approved closure plan and all approved amendments. (4) Closure procedures. (a) Each owner or operator shall notify the department and, where applicable, the financial assurance instrument trustee, of the intent to implement the closure plan in whole or in part, no later than one hundred eighty days before the projected final receipt of waste at part of or at the entire facility. (b) The owner or operator shall begin implementing the closure plan in part or whole within thirty days after receipt of a final volume of ash and/or attaining the final monofill elevation at part of or at the entire facility as identified in the approved facility closure plan. (c) Ash may not be accepted for use in closure except as identified in the closure plan approved by the department, as required in subsection (3)(a) of this section. (d) When facility closure is completed in part or whole, each owner or operator shall submit to the department: (i) Facility closure plan sheets signed by a professional engineer registered in the state of Washington. The plan shall reflect all as-built changes to final closure construction as approved in the closure plan; and (ii) An affidavit signed by the owner or operator and a professional engineer registered in the state of Washington that the site has been closed in accordance with the approved closure plan. (e) Maps and a statement of fact concerning the location of the final ash disposal must be recorded as part of the deed with the county auditor not later than three months after closure. Records and plans specifying ash amounts, locations and periods of operation must be submitted to the local zoning authority or the authority with jurisdiction over land use and must be made available for inspection. (f) When the department finds the facility has been closed in accordance with the specifications of the approved closure plan and the closure requirements of this section, the department shall: (i) Issue a certificate of closure for the site to the owner or operator and the department; and (ii) Notify the owner or operator and the department that the facility post-closure period has begun in whole or in part on a specified date. (5) Post-closure performance standard. Monofill owners or operators shall perform post-closure activities as needed to protect human health and the environment. (6) Post-closure plan and amendment. Post-closure includes monitoring of groundwater, surface water, and air quality; maintenance of the facility, facility structures, and monitoring systems; and other activities deemed appropriate by the department. (a) The owner or operator shall develop and use a post-closure plan approved as a part of the permitting process in WAC 173-306-310. The post-closure plan shall address facility maintenance and monitoring activities for a thirty-year period. (b) The post-closure plan shall project time intervals at which post-closure activities are to be implemented, and identify post-closure cost estimates and projected fund withdrawal intervals from the
